Manvendra Pratap Singh

Gorakhpur, UP, India | manvendrapratapsingh7781@gmail.com | LinkedIn | GitHub

Professional Summary

Driven Python Developer specializing in building scalable web applications, API integrations, and AI-powered automation tools. Hands-on experience with Streamlit, LLMs (Google Gemini API), in-memory document processing, and forensic security. Strong problem-solving background in data analytics and software automation.

Technical Skills

Languages: Python, R, SQL, Shell Scripting
Frameworks & Libraries: Streamlit, PyMuPDF, Pandas, NumPy, OpenCV, Git
AI & Automation: Google Gemini API, REST APIs, AI Agent Workflows
Data Analytics: Data Processing, Forensic Data Embedding, Excel Analytics

Key Projects

ExamShield AI — In-Memory Forensic PDF Security Suite | *Python, Streamlit, Gemini API, PyMuPDF*
Live Demo: examshield-ai.streamlit.app | Code: github.com/aegon-tech/ExamShield-AI

- Built a full-stack Python web application for dynamic document watermarking and leak tracing.
- Implemented in-memory buffer processing via PyMuPDF to secure dynamic PDFs without disk persistence.
- Integrated Google Gemini API to generate automated, multi-variant question sets dynamically.
- Designed batch processing workflows utilizing CSV mapping for center-specific security parameters.

Education

Amity University Online — Gorakhpur, UP
Higher Education / Degree in Progress (B.C.A DATA ANALYTICS) — *2024 – Present*
Coursework: Data Structures, Python Programming, Analytics, Unix Shell Systems
